Darlly Europe
Unit 18
Cedar Court
Halesfield 17
Telford
TF7 4PF
United Kingdom

Darlly are the largest manufacturer of filtration cartridges in the world, producing over 7 million filters annually. As important in the home of pool and spa consumers as they are in hospitals, blood banks, food processing plants and biotech pharmaceutical laboratories globally.

Darlly Europe handle the logistics, supply, marketing, research and development throughout all 44 European countries in the Pool and Spa market. With over 60,000 units in stock supplying over 2,000 customers through 5 distribution centres throughout Europe, normally on a next day delivery.

Darlyly® The Brand

Page 4
Darly's latest innovation which will change the way we sanitise our hot tubs.

Page 10
Cleaner, safer filters that last longer and are so much easier to clean. Antibacterial protection for your filter.

Page 26
Don't lose another filter sale. Know exactly which filter your customer requires. Easy.

Page 12
The World's leading filter from the largest manufacturer on the planet. Guaranteed. In fact the only filter with a guarantee.

Page 46
Ducks, pods, brushes, silver and you thought we only sold filters?!?

Darly are the largest manufacturer of replacement filter cartridges in the world and our customers include some of the world's largest spa manufacturers. Manufacturing filters globally in pharmaceuticals, microelectronics, medical, food and beverage, petrochemical, automotive, power generation and drinking water treatments our technical specialists undertake significant research and development to improve the effectiveness of filters in all the business sectors that we are involved in. Hangzhou Darly Filtration Ltd has been established for over 20 years with 6 centres covering 75 countries worldwide. Fully automated workshops and laboratories ensures Darly has up-to-date, future-proof, technologically advanced Research and Production facilities.

The Main Darly factory covers an area of 32,000 m2 (340,000 sq ft)
Sales office in Fuyang covers an area of 487 m2 (5,500 sq ft)
Chino,CA Warehouse covers an area of 2,500 m2 (30,000 sq ft)
Telford, European Distribution Centre covers 800 m2 (8,500 sq ft)
Largo,FL Warehouse covers an area of 180 m2 (2,000 sq ft)

Is Your Holiday Spa HSG 282 Compliant?

Image courtesy of Villeroy & Boch Wellness

The winning of the Spa Product Of The Year Gold Award at the 2018 UK Pool & Spa Awards in Birmingham marked the latest milestone in the rise of Darlly Europe's unique and ground-breaking SaniStream® Direct Line Filtration system. The SaniStream system, is a high quality Darlly hot tub filter, combined with an adjustable and refillable chlorine or bromine tablet erosion feeder, called SpaPod®, to make a highly effective combined, integrated hot tub water treatment system.

The SaniStream® system offers a solution to the problem posed to holiday let owners and operators by Section 76 of health and safety guidelines, HSG282, which states that hot tubs installed in a setting where used '... as part of a business activity (e.g. in a holiday park rental unit or hotel bedroom(s) with their own dedicated spa, or as part of a rental agreement for a single family or group use)' must be 'disinfected using bromine or chlorine through the use of an in-line disinfectant feeder'.

The big issue with Sec. 76 of HSG282 is that few hot tubs sold on the UK market feature inline disinfectant feeders. Worse still, HSG282 made no legacy-exemption provision, meaning many thousands of hot tubs already in the field became non-compliant overnight.

Heather Gilmore of Paith Holiday Cottages owns three holiday lets with hot tubs near Aberystwyth and sources the SaniStream system from local supplier, Welsh Hot Tubs.

She says, "I hardly have to intervene, and the dosing works very well. It gives me great peace of mind knowing my customers are in safe hygienic water conditions, and inspection and maintenance for us is easy and painless"

How Does It Work?

Its all based around a clever little device called a SpaPod®, a watertight pod, which can hold 5-6 Chlorine or Bromine tablets, with a fully controllable/adjustable output flow. Because the SpaPod is watertight only the bottom tablets are dissolved and the unused tablets drop down as required. We then have the Sanistream Filters, 2 types in fact, a removable handle filter (to which the pod locks into) or the straight-through open ended filter, which contains a compartment so you just drop the pod in.

Because the pod is within the filter this means your sanitation is always in the water (no more floating dispensers), nearly all Hot Tubs have their circulation cycles run through the filter, so the SpaPod keeps feeding required oxidisers into the tub, whatsmore, the more the Spa is used the more Chlorine and/or Bromine is dispensed.

And where in a Spa is the greatest concentration of bacteria/pathogens?

Indeed. . . all around the filter area, exactly where your sanitiser is now located!

Depending upon the usage of your spa a full SpaPod should last you 2-3 weeks without any further attention. Simply pop your pod into your filter and let it get to work. For initial dosing from a fresh start a sachet of relevant shock is ideal.

The SpaPod ® comes without any Bromine or Chlorine content, you simply add your own.

However, for convenience, total piece of mind and to eradicate any need to handle chemicals your solution is The AquaSPARKle Bromine

Pod by Complete Pool Chemicals

available at all leading Pool and Spa outlets in easy to use 3 month packs.

DL815 and DL816 respectively

“FOR FURTHER INFORMATION ABOUT THE PODS PLEASE VISIT OUR PRODUCT DETAILS ON PAGE 47”

Who is it for and which filters are available?

Primarily the Sanistream® system has been developed for the Holiday Park market, however, the ease of dosing, the efficiency of sanitation and the lack of chemical handling is proving to be extremely popular in the consumer market, indeed, many are reporting big savings in chemical costs because it is so easy to maintain the correct dosage of oxidiser.

Darley are rolling out the new filters purely upon demand, if your particular filter is not listed in this brochure just contact us by email or telephone and we can see about adding your filter to the range.

SILVER STREAM

Using Silver Ion Technology impregnated into our filter media we are able to present Antimicrobial Protection for your filter and, more importantly, your bather.

This process gives this filter a premium finish with:

- Increased Filter Life
- A Cleaner Filter
- No Mould Growth
- Fewer Odours
- Fewer Cleaning Times

This symbol throughout the brochure indicates we have a Silverstream version available for that filter. However, if you have a filter you require antimicrobial action and Silver Ion technology for just give us a call and we will check availability for you.

To Fit Some Of The Following Hot Tubs:

Fits many Sundance Spas 850 Series and 780 Series Spas available in the UK in conjunction with the MicroClean 1 disposable filter element SC721. Sundance Spas part no. 6540-501

Item	SC723	Length cm	34
Darilly	PP1271	Length inch	13.4
Unicel	C-4326	Dia cm	13
Pleatco	disposable C4950	Dia inch	5.1
Filter Area	--	Top	5cm Hole
Units/Carton	9	Bottom	5cm Hole

To Fit Some Of The Following Hot Tubs:

This is the disposable replacement for C-4950 (SC706) & C-4326 (SC704)
It cannot be cleaned or washed but will probably last in the region of 6 months
However, this filter media gives a filtration of 1 micron which is the equivalent of drinking water.
So it gives cleaner, purer water but does not last so long.

NEW

Brush and Flush Your Spa Filters

Could not be easier or more effective

- the only filter cleaner with brushes
- the only filter cleaner with liquid dispenser chamber
- the highest quality filter cleaner in the market
- precision uni-body engineered to last more than just one season

Gold Plated and Recession Proof

No matter your political bias there's little doubting in 2019 the pool and spa industry will be facing yet another challenge.

During any difficult economic time wise investors buy gold and by selling Darly cartridge filters that is exactly what you will be doing.

The highest value brand in the European spa accessory market and no matter if consumers are buying tubs or not EVERY single hot tub owner ALWAYS needs a new filter . . . some 2,3 or even 4

MASTER SPAS X268080

This one filter replaces the PMA45 (SC729) and PMA10 (SC725)

Take 2 (sometimes 3 or 4) EVERY year for the rest of your life.

It is so easily forgotten but a spa needs a new filter (sometimes 4) every single year. With the most common filter retailing at £29 over the next 10 years that's an income of £1,160 per customer. How many customers do you have?

www.darllyeurope.com
(t) 01952-580500

Darlly® Europe
the consumer's choice of filter

STANDARD

How to identify your spa filter cartridge

1 All genuine Darlly filters have the part number printed on the end cap (eg "60401") Also the label which comes on the wrapper will have all details. (Please keep this for next time) Pleatco and Unicel will also sometimes have the part number on the end cap and this brochure as well as our website at www.darllyeurope.com contains all of their part numbers.

2 However, should you be without any part number simply follow our 'Find a Filter' guide below using various measurements and brand identities. Failing all of this simply call us on +44 (0)1952 - 580500 we would be delighted to help you.

A Measure the outer diameter of the filter measuring from the left edge of the filter to the right edge .

B Measure the overall length of the cartridge (Do not include handles or threads)

A more accurate measurement is made by measuring through the centre of the cartridge when possible

Fine Thread (MPT) has from 6 - 8 fine twists (Pleatco ends P4 or F2M) whereas Coarse Thread (SAE) will have as little as only 3 thicker threads (Pleatco ends P3 or F2S).

C Measure the inside diameter of the opening of the cartridge or the inside edges of the thread. Holes are normally 50mm (2"), 75mm (3") or 100mm (4") Threads are normally 38mm (1 1/2") or 50mm (2")

Will another Filter Fit my Spa?

the answer to this is surprisingly YES.

Especially if it has a handle. A handle filter is normally always with a threaded bottom and so long as the thread is the same, the diameter of the filter is similar and the sq ft of filtration similar then a longer or shorter filter will suffice so long as the filter does not come above the water line thus allowing in air.

Filter measurements may vary. Always allow a variance of +/- 5mm

If you are having difficulty in finding your filter and find-a-filter pages have not worked here then do go www.darllyeurope.com failing that please call us - we like telephone calls!! +44 (0) 1952 580500

PRE-STREAM™

FILL YOUR HOT TUB WITH CLEAN WATER

SC778 Pre-Stream

Fill Your Spa with Clean Water

Removes common water contaminants before they enter the Spa

The Darly Pre-Stream pre-filter is 90% efficient at removing contaminants including: solids, dirt sediments, rust, iron, copper and other hard mineral deposits that could scratch your spa's surface and reduces staining.

Simply by attaching to your garden hose it reduces the amount of contaminants in the water before they enter the pool or spa and thus the amount of chemicals needed, to create the perfect water conditions.

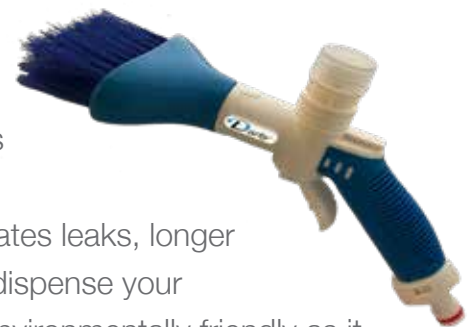

SC785 Cyclone Filter Cleaner

'Brush and Flush'

The Cyclone cleans deeper, in less time, and prolongs the life of the filter cartridge by leaving the treated filter cartridge restored to its previous condition.

Redesigned in 2018 and now using a uni-body design which eradicates leaks, longer brushes for deeper cleaning and a unique filter cleaner chamber to dispense your favourite cleaning solution saving time, money and whatsmore, its environmentally friendly as it uses far less water.

PURE-STREAM™

NO MORE SCALE - NO MORE HARD WATER

SC795 Pure-Stream

Eliminates calcium from tap water! No More Scale - No More Hard Water in the Spa

Using the Pure-Stream is like filling your Hot Tub with pure natural bottled water!

Darly's Pure-Stream uses ion-exchange resins within the filter to transform calcium and magnesium into sodium.

This process removes the calcium and magnesium from the water source leaving the lime scale in the filtered water suspended where it cannot cling to equipment or surfaces, producing soft water.

This reusable filter retains its effectiveness when refreshed by adding a saline solution into the cartridge after use.

SC796 Filter Cartridge Cleaner

Darly's Own Branded Filter Cartridge Cleaner

Double strength without the use of harsh chemicals. 6 - 12 months usage.

Removes calcium lime scale, body grease and other contaminants.

Through the use of our deep cleaning formula your filter will last longer.

Only available in UK cartons and on Pallet orders within EU

SC800 Nature 2

Nature2 SPA is perfect for spa owners looking for an eco-friendly, low maintenance alternative to heavy chlorine or bromine to keep their spa clean and free of harmful bacteria and viruses. Nature2 SPA uses an EPA-approved mineral bed technology to effectively kill bacteria safely and effortlessly.

SC 805 Darly Duck

People will say we are Quackers, but we are delighted to introduce you to Darly Duck.

Darly Duck is an incredibly talented fellow, he prevents scum lines from forming, which eliminates the need to scrub the acrylic shell of the spa. He reduces contaminants from clogging your filters and if that was not enough he absorbs 40 times his own weight in oils, lotions and cosmetics.

Darly Duck likes to float freely and clean up, when one side is dirty, turn him over and he will continue his mission. Every now and again Darly Duck likes to be rinsed so buy Darly Duck now and let him do the dirty work.

DL 815 SpaPod

For use in Darly Sanistream® filters, a watertight canister capable of holding 5-6 chlorine or bromine tablets with a controllable flow output.

Should last, with normal operation, 2-3 weeks.

Easy to use, safer sanitation and cost effective. SpaPod does not come with any Chlorine or Bromine, simply add when necessary.

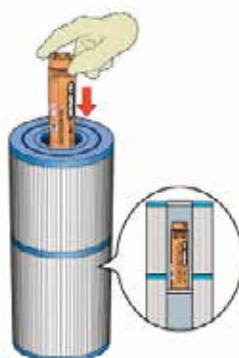

DL 816 AquaSPARKle Pod

For use in Darly Sanistream® filters, the AquaSPARKle Bromine Pod (Chlorine Pod following shortly) is a larger version of the SpaPod but comes ready filled with enough Bromine Tablets to last you up to a month. (Available in packs of 3)

No more handling of chemicals at all - simply pop your Pod into your filter and when it is depleted simply dispose and replace.

PLUS the new AquaSPARKle pod is compatible with other proprietary Spa dosing systems and frames.

Each pack (3 months) comes a complimentary clip for such frames.
