## LTO Subscriptions – Notifications

Free LTO accounts qualify for an unlimited number of notifications via email, but no notifications via SMS text message.

Paid LTO subscription accounts qualify for an unlimited number of notifications via email, plus a limited number of notifications via SMS text message.

Each paid subscription includes an annual quota of 500 x “notification units”. A two-year subscription includes 1000 x notification units.

A certain number of notification units are deducted from the subscriber’s account for each notification sent via SMS text. The number of notification units depends on local SMS text messaging charges. For example:-

- In the UK, 5 x notification units will be deducted for each notification sent.
- In Germany, 10 x notification units will be deducted for each notification sent.

SMS notification unit rates are specified for each country. In practice, this means that subscribers will qualify for a different number of notifications as part of the subscription fee depending on the location of a given configured cell phone number.

In the event that a subscriber uses all their notification units before their subscription expires, the subscriber will be able to purchase additional notification packs from their distributor.

Proposed pricing for SMS Notification unit packs as follows:

No. of Notification Units	per pack
500	€6.25
1000	€12.50
