

START PLUS 6824 12-24V

Overview

START PLUS 6824 12-24V

cod. 829571

Battery-powered starter suitable for 24V starting of trucks, vans, tractors and 12V starting of cars, vans, boats, power sources, etc. The 12V output is a power source for use in emergencies; when connected to the cigar-lighter outlet it maintains the voltage on all circuits during battery changes of vehicles with 12V batteries. It does not damage the electronics of the vehicle and allows for a large number of starting operations before being recharged. Start Plus can be recharged using the special power supply connected to the mains network (for the safeguard of the battery, charge for 12 hours before use, charge again after each use and every 3 months in any case). Complete with 230V AC - 12+12V DC power supply, positive-negative cables with clamps.

1 PH 230V

Technical data

CODE 829571

BATTERY CAPACITY 80 / 40 Ah

WEIGHT 41 kg

MAINS VOLTAGE 230 V

STARTING CURRENT 2000 / 1000 A

EAN CODE 800489794086 1

MAX STARTING CURRENT 6000 / 3000 A

PIECES/PALLET 12 pz/pallet

STARTING VOLTAGE 12 / 24 V

DIMENSIONS 30,5 x 36 x 63 cm
