CT80

HIGH PERFORMANCES IN HEAVY DUTY APPLICATIONS

CT80 is a jewel engineered to clean large surfaces, in a small ride-on design. CT80 is super maneuverable and packed with exclusive innovations such as APC, ANC and ECOselect. APC will give you unrivalled control on waterflow, avoid downtime of refilling and cut cleaning costs. ANC is the new innovative noise killer. On top of that the CT80 still manages to have the widest battery space - making it go further and longer.
