

X BLUE 12V

X BLUE 230V

IT. Elettropompa per Urea

Pompa rotativa autoadescante di tipo volumetrico a membrana equipaggiata con valvola by-pass incorporata nel corpo pompa. Motore disponibile con alimentazione 230V o a corrente continua 12V. Costruita con corpo pompa e componenti in tecnopolimeri idonei al travaso di AUS 32 e acqua, la pompa garantisce solidità anche per erogazioni frequenti.

EN. Urea Electric pump

Volumetric-type self-priming rotary membrane pump equipped with built-in by-pass valve. Motor available with 230V power supply or continuous current 12V. Tecno-polymer pump body and parts suitable for transferring AUS 32 and water. The pump ensures sturdiness even if used frequently.

Caratteristiche

| | 12V | 230V |
|-------------------|--------------|--------------|
| • alimentazione | 12V | 230V |
| • corrente max | 25A | 1,5A |
| • ciclo di lavoro | S2 20 | S2 20 |
| • portata | 36 l/min | 34 l/min |
| • entrata/uscita | 1" BSP-G | 1" BSP-G |
| • cavo | 2m | 2m |
| • portagomma | Ø19mm | Ø19mm |
| • fluidi | urea / acqua | urea / acqua |

Features

| | 12V | 230V |
|----------------|--------------|--------------|
| • power supply | 12V | 230V |
| • voltage | 25A | 1,5A |
| • duty cycle | S2 20 | S2 20 |
| • flow rate | 36 l/min | 34 l/min |
| • in/out | 1" BSP-G | 1" BSP-G |
| • cable | 2m | 2m |
| • hose stem | Ø19mm | Ø19mm |
| • fluids | urea / water | urea / water |
