

ANVISNINGAR FÖR KATALOGENS ANVÄNDNING

Indelning och register

Katalogen är indelad i grupper, som framgår av registerbladet. Bildsidan följs av motsvarande textsidor. Textsidan anger detaljens bildnummer, benämning, beställningsnummer, antal detaljer per motor och eventuella anmärkningar. Anmärkningarna placeras antingen till höger eller nederst på sidan. I det senare fallet är den alltid markerad med fotnot 1, 2 etc. Står ordet komplett efter en detalj-benämning, medlevereras vid beställning samtliga under komplettdetaljen indragna detaljer.

Beställning av reservdelar

Vid beställning av reservdelar skall alltid följande iakttas:

- 1 Ange alltid motorns typbeteckning, serienummer och motornummer.
- 2 Ange alltid reservdelens rätta benämning och beställningsnummer.
- 3 Ange alltid tydligt namn och adress.

HOW TO USE THE CATALOGUE

Sub-divisions and register

The catalogue is divided into groups as shown by the register sheet. The illustration is followed by the corresponding pages of text. The text pages show the location of the part in question in the illustration, a description of it, the number to be used for ordering purposes, the quantity of this particular part used in the engine, and remarks if necessary. The remarks are in the form of foot-notes 1, 2 etc. and are placed either to the right or at the bottom of the text pages. If the word complete is included after the description of a part, all the component parts listed under the part heading and slightly displaced to the right are supplied.

Ordering spare parts

The following points should be noted when ordering spare parts:

- 1 Always state the engine model, the serial number, and the engine number.
- 2 Always state the correct description of the spare part and its order number.
- 3 Always indicate your name and address clearly.
