PRODUCT OVERVIEW

Introducing our new and improved KH218.2 Aluminium Wizard Karabiner! Hot forged in our factory in Wales (UK), the redesigned Aluminium Wizard is looking better and is stronger than ever. The KH218 Aluminium Wizard Karabiner now boasts an increase of 12.5% in strength, with the MBS increasing from an impressive 40kN to 45kN (8992 to 10116lbf). With its high strength to weight ratio, the Aluminium Wizard is sure to be one of the sharpest looking and most capable Karabiners in anyone's kit.

Alongside the increase in strength, the newly redesigned Wizard will not only reduce its weight by almost 5% but also maintain the classic Wizard range shape which is designed to bias the load towards the spine – the strongest part of the Karabiner. We further emphasize this in the redesign with the inclusion of triangles, a symbol of strength, on the spine.

TECHNICAL INFORMATION

Part Code	KH218.2
Dimensions	128 x 74 x 18mm (5 x 2.9 x 0.7")
MBS	45kN (10116lbf)
Gate Opening	26mm (1")
Nose Type	Blind (anti-snag)
Standard Gate Types	Screwgate, Twistlock, Supersafe
ANSI GateTypes	ANSI Twistlock & Supersafe versions available
Captive Pin	Available on request (standard models only). Pin supplied loose, for retro-fit.
Material/Finish	Aluminium/Anodised
Weight	115g (4oz)
Standards	EN362:2004 B/T, UKCA, Meets NFPA 2500 (1983) 2022 ED G Meets ANSI z359.12 2019 models available
