

# DUCK

## MULTIUSE ROPE CLAMP

Duck, the innovative emergency rope clamp.

Conceived for single ropes with a diameter between 8 and 13 mm, Duck is the first and only clamp that also works on flat and tubular slings from 10 to 15 mm width (even if these are not certified for progression).

Due to its small dimensions, it can be easily attached with one hand.

The big hole allows locking connectors to rotate. Duck was born as an emergency rope clamp for retrieval, progression manoeuvres and for the regulation of daisy chains.

Available set consisting of Duck + OVAL ALU screw connector (# 888SET001KK)

High quality product, completely conceived and produced in Italy!

## Usage activities

MOUNTAINEERING

CAVING

CABLEWAY EVACUATION

HELIRESCUE

MOUNTAIN RESCUE
