KEY FEATURES

- Lightweight and flexible
- Precise & consistent length adjustment
- Easy replaceable components
- High contrast visible colours

The Flexbee is a lightweight, flexible and high contrast coloured work positioning lanyard for arborists based on the Squir rope construction. We achieve accurate length adjustment by a perfectly matching hitch cord lanyard with pulley and karabiner system.

TECHNICAL SPECIFICATIONS

- 11.5mm 32-strands rope with 2 compact stitched eyes
- Polyester sheath with Polyamide X-braid core
- Length adjustment system containing:
 - Phoenix 8mm 70cm hitch cord lanyard in Distel 5-coils setup
 - Mova small aluminium twisting side plates pulley
 - Axxis TL aluminium triple lock karabiner
- Maximum rated load: 140kg
- Maximum lifespan textile parts: 10 years
