RESCUCENDER

Simple to use and ergonomic, the RESCUCENDER is an openable cam-loaded rope clamp designed for use in haul systems as a tractor or progress capture device.

Openable guided cam allows easy installation or removal of the rope clamp at any point on the rope.

The safety catches are equipped with indicators that show when they are unlocked.

Short Description Openable cam-loaded rope clamp

Selling Points

- Designed for use in haul systems as a tractor or progress capture device
- Simple to use, and ergonomic:
 - openable cam allows installation or removal of the rope clamp at any point on the rope
 - independent safety catches on each side of the device allow easy opening while reducing the risk of accidental opening. These safety catches are equipped with indicators that show when they are unlocked.
 - cam integrated into frame of device for ease of handling
 - large attachment hole to facilitate carabiner rotation
 - integrated cam spring helps avoid accidental snagging and increases durability
