## SWIFT® RL PRO

Designed for the workshop, small maintenance jobs, or concerts and shows, the SWIFT® RL PRO rechargeable headlamp provides 900-lumen brightness. With its REACTIVE LIGHTING® technology, a sensor analyzes the ambient light and automatically adjusts brightness to user requirements. It also has red lighting for stealth. SWIFT® RL PRO is intuitive, with a single button for easy control over all lamp functions. The five-level gauge allows precise monitoring of the battery charge level. The lamp is compatible with Petzl helmets, and mounting accessories allow it to be attached to a variety of helmet types.

Ultra-bright and lightweight: 900 lumens for a weight of only 123 g.

Longer burn time, greater visual comfort and less manual operation with REACTIVE LIGHTING® mode, which allows the light sensor to automatically adjust brightness and beam pattern, optimizing battery usage

The lamp is compatible with Petzl helmets, and mounting accessories allow it to be attached to a variety of helmet types.

Charges via micro USB port.

### Short Description

Very powerful, lightweight rechargeable headlamp with multi-beam and REACTIVE LIGHTING® technology for proximity and distance vision. White or red lighting for stealth. 900 lumens.

### Selling Points

- Ultra-bright, lightweight and rechargeable:
  - 900 lumens for a weight of only 123 g
  - Lithium-Ion 2350 mAh battery, rechargeable via the type B micro USB port, with battery charge indicator
- Optimized comfort and burn time:
  - visual comfort thanks to the two beam patterns (mixed and focused) providing high-performance lighting for professionals: proximity vision, movement and distance vision
  - three lighting modes selected with a long hold: STANDARD LIGHTING, REACTIVE LIGHTING® and red lighting
  - longer burn time, greater visual comfort and less manual operation with REACTIVE LIGHTING® mode, which allows the light sensor to automatically adjust brightness and beam pattern, optimizing battery usage
  - continuous red lighting combines visual comfort and stealth
- Intuitive and convenient to use:
  - ease of use, with a single button providing control of all functions: ON/OFF, lighting modes, brightness and locking
  - lamp can be tilted upward
  - LOCK function to avoid accidentally turning on the lamp during transit or storage, or to lock lighting settings during your activity
  - five-level gauge for precise monitoring of the battery charge level
  - detachable, washable headband
  - compatible with Petzl helmets, thanks to the included mounting plate
  - compatible with other helmets (1), using plates, available as accessories

(1) For other helmets, verify compatibility with the helmet manufacturer.

### Specification

- Light output: 900 lumens (ANSI FL 1 STANDARD)
- Weight: 123g
- Technology: REACTIVE LIGHTING® or STANDARD LIGHTING
- Beam pattern: mixed or focused
- Energy: 2350 mAh Lithium-Ion rechargeable battery (included)
- Recharge time: 6h
- Certification(s): CE
- Watertightness: IPX4 (weather-resistant)
- Headlamp comes with a plate for mounting on Petzl VERTEX and STRATO helmets.

### Lighting performance

Lighting performance as defined by the ANSI/PLATO FL 1 protocol						
Lighting technology	Lighting color	Lighting levels	Brightness	Distance	Burn time	Reserve
REACTIVE LIGHTING®	white	close-range work	100 lm	35 m	10 to 50 hrs	10 lm for 2 hrs
		proximity	300 lm	55 m	5 to 40 hrs	15 lm for 2 hrs
		movement	900 lm	150 m	2 to 30 hrs	
		distance vision	550 lm		4 to 50 hrs	
STANDARD LIGHTING		close-range work	10 lm	12 m	100 hrs	10 lm for 2 hrs
		proximity	200 lm	55 m	5 hrs	15 lm for 2 hrs
		movement	550 lm	110 m	2 hrs	
		distance vision	250 lm	95 m	4 hrs	
	red	-	visible at 700 m for 30 hrs			-
