ZILLON

The ZILLON work positioning lanyard for tree care adjusts easily with only one hand, even when loaded. It is designed for use in double mode on the harness side attachment points, or in single mode on the ventral attachment point with the hand on the free end. Yellow color for excellent visibility.

Easily adjusted with one hand thanks to the progressive locking/unlocking action of the device.

Pulley mounted on sealed ball bearings allows slack to be taken up easily.

Short Description Adjustable work positioning lanyard for tree care

Selling Points
