	ZUBAT ULTIMATE Professional	VS	ZUBAT 330 Professional
Code No.	746-33		270-33
Blade length (mm)	330		330
Teeth Type	Progressive+GOKAI-Me		Non-Progressive+Mirai-Me
Teeth Per (30mm/in)	6.5-7.5/5.5-6.4		7.5/6.4
Kerf (mm)	1.4		1.4
Blade Plating	Nickel Plating		Nickel Plating

FEATURES & BENEFITS :

- 1. The scraper-shaped GOKAI-ME teeth are perfectly designed to remove remaining saw dust and to make both rip-cuts, cross-cuts and slant-cuts with greatest performance.**
- 2. PROGRESSIVE TEETH (6.5-7.5 teeth/30mm) give smoother start of the cutting stroke.**
- 3. The new ebony scabbard and black metal plate offer a different value from the previous Zubat series.**
- 4. 3D ROLLER LOCK SYSTEM protects the scabbard from the teeth and gives loner life to the scabbard.**
- 5. ELECTROLESS NICKEL PLATING coats the entire blade giving the blade stronger rust resistance.**
