VERSA 5 GLAZES

Versa 5 is a dynamic cone 5-6 glaze series featuring 17 mixable colors, offering endless creative possibilities for potters of all skill levels.

Designed with a stiff melt, Versa 5 preserves its glaze application shape. This unique trait makes it ideal for patterning with slip-trailing & glaze layering on bisque or Silky Underglaze. Tiles below are decorated with a slip-trail dotted pattern.

Versa 5 is great for its limitless color combinations. As shown to the left, each glaze can be mixed and sieved for shades and hues far beyond the standard 17 Versa 5 glaze colors. Plus, mix MS-300 Clear with any opaque glaze to yield a transparent glaze result!

Food-safe and dinnerware-friendly, Versa 5 glazes are a perfect balance of **versatility** and **durability**, making them an ideal choice for both functional and decorative ceramics.
