Two Bay Charger

FEATURES

- Two bay charger for SL DW, ew D1 and AVX
- Universal charging slots for either bodypack or handheld
- External DC adaptor

The CHG 2 charger makes battery management really easy. The mobile transmitters, while not in use, are charged in the two charging bays. Thus, the devices are always ready-to-use when needed. The bi-color LED provides the status (charging or fully charged). For seamless installation, the external power supply provides the necessary flexibility.
