

Step by step

Catchbox customization

Add logos and color to your Catchbox and turn your brand into a key talking point.

1. Choose your color

You can choose the color for your Catchbox cover from the standard colors or provide us with the RGB code for your preferred color.

Standard colors

				
R: 255	0	255	255	88
G: 211	161	0	255	89
B: 45	212	0	255	91

Custom color *

Your custom color

R: ?
G: ?
B: ?

Provide us with the RGB code for your preferred color and we'll apply it to your custom Catchbox cover.

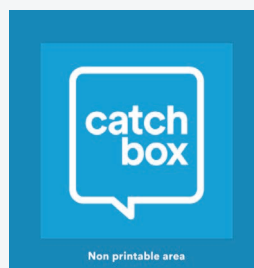

2. Choose your logo

You can add your logos on four sides of the Catchbox cover. You can customize all sides with different logos or leave any of the sides empty. The printable area on each side is 120 x 120 mm / 4.7 x 4.7 in.

Formatting the logo file

1. Submit the logo in PNG or JPG format
2. The file should be up to 50 MB in size
3. Resolution starting from 700x700 px
4. Resolution up to 23000x23000 px
5. Colors should be in RGB color model
6. Center image within the logo file

Tip: Use a PNG file format for your logo - it allows saving with a transparent background.

Placement of the logo

Remember that you can vary with the logo size within the printable area. Having empty spaces around the image in the logo file will limit the image placement on the cover.
