EX50

USB 2.0 EXTENER KIT

Superio USB 2.0 Extenderkit

The USB 2.0 Extender can extend USB signal up to 50 meters / 164ft via Cat6 cable. In TX-side, the USB-B port is connected a PC. In RX-side, you can connect a device with USB port at the two USB ports such as USB-camera disk or printer. In addition, you need to connect 5V/1A power supply to receiver.
