We are aveva design!

With passion for new ideas, inspirational design and natural materials, we love to create colorful functional objects. Focusing on sustainable ideas and materials, we create modern and playful items. Aveva originally refers to the designer & founder behind the company; Eva. All design starts with a person, and aveva simply means design "byeve" in Swedish. Today aveva refers to a Swedish design company, also collaborating with other designers, both locally and internationally.

We like to challenge traditional and natural materials and stretch their possibilities by combining the hard and soft materials in interior design. Aveva has retaken the hand-felted wool into the living area, keeping an old tradition alive and the values that it suggests. The fact that wool is durable, insulating and resistant gives us endless possibilities to use wool in our products. The combination and contrasts of wood and wool is a clear part of our trademark, but the core value is that we are drawn to natural materials, produce what we like and get inspired from travels, interactions, collaborations and friends.

We hope to inspire you!

We care!

Therefore we choose our materials consciously and carefully to ensure sustainability for the environment and manufacturers, partners and employees. We produce as much as we can in Scandinavia, but we also work with handcrafted production in other parts of the world where the traditions stayed alive. We choose manufacturers, partners and employees carefully to ensure that everybody involved care as much as we do. We strive for honest and long lasting relationships.

We choose!

mule-free wool

azo-free colors

certified wood

fsc certified paper

organic cotton

We love wool!

wool is...

100% natural , renewable and biodegradable

it is warm but it is cool

flame retardant and will self-extinguish

strong and long lasting

the world ´ s oldest renewable fibre and the most versatile and modern

smarter than any other fibre

a natural insulator

live naturally, choose wool

wood **hanger** p.29 / wow **stool** p.24 / wool **doormat** p.26 / flower **pot** p.30

wool **mat** p.26 / raw **jewel** p.32 / wave **vase** p.32 / coffee **table** p.25 / wool **pouf** p.25

Flying plants

Treated with natural rubber on the inside, we have created a flowerpot of 100% wool keeping the water inside for weeks. The light, soft and round shape gives them a unique expression. Placed by the window, on the floor or hanging in the air, the flowerpots will solely or in a group bring good vibes anywhere.
