2019

Small is the new big

We were running faster and faster in the spinning wheel of the design industry, almost losing ourselves! Feeling exhausted, we ended up questioning who we are, and are we who we want to be? With the general measurement that bigger equals better, it is easy to feel like a failure if you're not doing exactly that; thinking big, being big, acting big, striving for big.

Not striving for big gave us a new mantra: small but developing. Taking a step back helped us to find a new turn. Focusing on what we do best: Making creative products that challenge traditional crafts and materials. Handcrafted, long lasting and unique.

With a more passionate and excited mindset, we will deliver happy & friendly products that wish to bring joy to your heart, home and surroundings for a really long time. Through our choice of natural and sustainable materials and hand-making techniques, we work against mass consumption for the benefit of the planet.

WARM WELCOME TO AVEVA

FLOWER POT 18

Treated with natural rubber, we have created a waterproof flowerpot of wool. The light and soft feeling gives them a unique expression. Flower pot 18 was added to the greenery collection during fall 2018 and was a great success. The straight line and ombre effect of two colors fulfills any window or corner!

EXPANDING THE STUDIO

We love our studio and the creative space we have there. The creative process from mind to finalized craft, and everything in between. All the materials and their possibilities; wool, wood, cork, leather and now clay!

We have been working and experimenting with clay and glazes for some time now, and are happy to release the first two items in ceramic. Achieving unique pieces and random coloration effects is among the great privileges of the craftsmanship.

BIRD HOUSE

Inspired by the bird's way of building, our birdhouse is made of their favorite material – wool! They know that wool is an outstanding protection against water, wind and cold. The colors are kept natural to fit into nature. The birdhouse is suitable for most species of small birds such as tits, sparrows & finches.

We have a **choice!**

Through our choice of natural and sustainable materials and hand making techniques, we work against mass consumption for the benefit of the planet and oneself. We don't believe happiness comes from consumption. But investing in fewer and lasting products can be a choice not only making yourself happy, but also the planet.

Natural materials

A natural choice for us is to work with natural materials. Not only for the pleasure in the handicrafts, but for the great benefits of the different materials. Another great advantage is of course the possibilities to renew and biodegrade them once they are out of use.

As you might know by now, wool is a favorite among materials to us. And since there are many reasons for that, we like to mention a few of them:

- 100% natural
- Renewable
- Biodegradable
- Warm and cool
- Flame retardant
- Strong and lasting
- Stain resistant
- Anti-static
- A natural insulator
- A non allergen, safe solution
- Versatile and modern

BFF

To be proud of what we do, it is important to us to be upright and true friends with our fantastic suppliers. Meet our BFF's - best friends forever: Mother Nature and her animals. Not only because they serve us with all the ingredients we need for our handicrafts, but also because we love to see the cool guys in the field when we go for a hike in the paths of our lovely planet. To also be able to do so tomorrow, we choose:

- Mule - free wool
- Natural and azo-free colors
- Certified wood
- FSC-certified & recycled paper
- Organic cotton
- Smart and minimal packaging
- Long living products
- Craftsmanship

"A natural choice for us is to work with natural materials."

Greenery

flower pot 18

Aveva's wool flower pots with a flat bottom and two different colors that blend together, creating a lovely ombre effect. The inside is coated with natural rubber that makes the flower pot water proof.

wool jar

Handmade jar made of wool, and a lid of cork and leather. A natural storage for your smaller possessions. In the kitchen, the bathroom, or the bedroom for your jewelry, or whatever you choose. With the beautiful soft blend of two colors together and the dark cork lid, this jar is not only a place to put away your stuff, it's a beautiful decoration in your home. Choose between eight different color combinations.

Material: Wool, cork and leather

Ø: 8 cm
H: 9,5 cm
Weight: 75 g

eva jar

As one of the first ceramic project, this jar was designed by Eva for aveva! Handmade in our Malmö studio, we thought it was time to have a “solid” sister to the wool jar. Not all goods are suitable to store in wool. Minimal design, simple forms, future-oriented and focus on bringing a colorful glaze to speak for itself. The smoked cork lid and its leather detail is included.

Material: Ceramic

Ø: 9 cm
H: 6 cm
Weight: 200 g
