New easy order online

We are not attending any fairs this season and hope to see you again in 2021. Too bad we cannot meet you. Instead we will send you our Aveva Design catalogue, packed with amazing products + our latest news for A/W 2020!

As many of you know by now, we have started with a new online order system for our customers. You are still welcome to contact your agent, send us orders by e-mail or call us. The login is also easy to access from our webpage.

Please note that when you send the order, you will get back a separate order confirmation from our system with the delivery date. Also, order all items you want, some might be marked red, but still be in stock or incoming into our stock. We hope you like this new possibility and we look forward to hearing from you soon again.

On the right you see your personal login. If you have any questions or if the login is missing, please contact me: anneli@aveva-design.se

Best wishes from the aveva design team

What the craft...

Being a designer, maker, crafter or artist, making things that you can question the need of, can feel contradictory.

You may lose track and motivation in your profession if you get stuck in those thoughts. Instead we decided to use this contradiction to reach as far as we can in doing great things that enhance life. Producing only as much as we need, using natural materials.

When we started AVEVA DESIGN, we outlined a framework to work within: Colorful, happy, useful and natural. But the more you learn, the more specific the framework becomes. The most important we figured is to use new knowledge, be kind, stay tuned and have fun!

With a passionate and caring mindset, we deliver unique crafted products that create good vibes around your home for a long time.

FLOWER POT 20

A pretty famous shape, but in a woolly way. Stunning to combine with our other models as well as with the classic terracotta version.

URBAN JUNGLE

We love to create an urban jungle in our house. Here with our Flower pot 16 and 18 series. Treated with natural rubber on the inside, we have created a waterproof flower pot of wool. The light and soft feeling gives them a unique expression.

NOMAD HOTEL

We all value some quality time, some privacy or our own space. Maybe you need some rest, a little nap or even some deep sleep. This also applies to cats, dogs or other little darlings, and the woolen tipi gives a great spot for that. Warm, soft and cozy!

WUTHERING HEIGHTS & POPPY FIELDS

A new tall vase, Wuthering heights, for single spectacular cuts.
Made of wool, glas and sand.

All posters are inspired and connected to our home in Skåne, Sweden.
A cat overlooking the sea from a great spot in the hilly region of Skåne.
A field in full blossom in early summertime. Ginkgo trees around our
neighbourhood and poppy fields when leaving the city.

People who really care do it better!

We are proud of what we do and it is important for us to be upright and true friends with our fantastic suppliers, crafters, co-workers and people we collaborate with. From A to Z, we solely work with people around us that all care and contribute in the same way to a great product and service.

In this long term process, the following values are important to us:

- Mule-free wool and kind techniques
- Natural and azo-free colors
- Certified wood
- Organic cotton
- Smart and minimal packaging
- Long living products
- Craftsmanship
- Engaging all in the process to improve, rather than getting a certificate

It is all about the choice of material!

Through our choice of natural and sustainable materials and craft techniques, we work against mass consumption for the benefit of the planet and oneself. We only produce what we need and invest in fewer and lasting products. Another great advantage of natural materials is the possibilities to renew and biodegrade them once they are entering "end of life".

Why we fancy wool so much?

- 100% natural
- Renewable
- Biodegradable
- Warm and cool
- Flame retardant
- Strong and lasting
- Stain-resistant
- Anti-static
- A natural insulator
- A non-allergen, safe solution

Ceramics - an ancient material for the future.

Ceramic doesn't burn, it withstands heat, light and chemicals and is easy to clean. In addition, it is extremely durable, as many of the archaeological findings around the world prove. Ceramics have no harmful side effects during manufacture or use (emission-free), since all substances are chemically bound in goods or glaze.

STUDIO CRAFTS

The last two years has been years of change and renew for AVEVA. From mainly being wool fanatics, a whole ceramic studio has been built up in Limhamn-Malmö, to expand the studio. Some pieces have already been seen, and in this catalogue we show a bit more. A studio production means a lot to us! It means happy crafters, enthusiastic people, having fun, creative flow, small scale and people who really care! We make pots to be enjoyed by generations! The collection is here to stay and to grow.

CERAMICS

As one of the first ceramic project, our Eva jar was designed by Eva for Aveva! Designed in our Malmö studio, we thought it was time to have a “solid” sister to the wool jar. Not all goods are suitable to store in wool. Minimal design and focus on creating a “down to earth” look.

Itty bowls is a multi bowl for pinch salt, soy sauce, dip, spices, chilis or a tea light.

Inspired and connected to the wool vase, we created a ceramic version of the “volcano” series. Each piece is named after an actual volcano. Hand glazed like an exploding volcano, this little vase is bringing happy organic vibes to any room, simply a color explosion on it´s own, perfect for a fresh little flower.

Projects

One of the great advantages of having our own studio is the possibility to make unique pieces, play and develop.

Do you need unique ceramics or products? We love to help you!
