## Pack Contents:

6 X sizer panels 24 X securing tags

## Build Instructions:

- 1. Place the 6 panels on the floor as shown
- 2. Insert 2 securing tags through the holes indicated by the red arrows
- 3. Insert 1 tag through the holes marked with a blue arrow
- 4. From the 6-sided box shape with the printed sides facing outwards by joining the templates together with the tags.
- 5. Secure the box by connecting the remaining tags

## Note:

the edges of the sides should fit together like puzzle pieces

the elastic tags should form a square with 3 tag connections at each corner of the box as shown opposite. You can also tape each side and corner for a permanent fixing.

Made in China
