

Gala launches a new design of a professional volleyball

# Pro-line BV55955 „HANDSHAKE“

The ball is designed for classic indoor volleyball and meets all official parameters requirements. It stands out with its distinctive and dynamic design.

The name „Handshake“ directly corresponds to the appearance of the ball - the red and blue panels „shake hands“ which refers to good sportsmanship and fair play in sports.

The colour and shape of the panels create a very attractive visual effect during flight and rotation, and thanks to its three-color and expressive design, the ball is easily visible to players and spectators during the game.

Thanks to the ingenious construction, all twelve ball panels have the same shape. As a result, the load is evenly distributed over the entire surface of the ball which allows it to maintain its shape during volleys and upon impact. The even distribution of the connecting lines guarantee uniform flight and aerodynamic properties in all directions and turns while in play.

- 
- the ball is intended for top indoor volleyball competitions
  - meets the most demanding game requirements
  - made of innovative synthetic polyurethane leather in a golf ball pattern
  - dynamic 12 panel design (registered EU industrial design)
  - working name „handshake“ describes the sportsmanship gesture
  - excellent flight characteristics of the ball, good visibility and distinguishability during the game
  - butyl rubber bladder
  - size 5
