

## Hand Pump for Petrol & Diesel Fuel

### SCOPE OF DELIVERY

- 1 Hand pump with shut-off valve 1.5 liter
- 2 Adaptor 5/16" (male) to 10 mm (male)
- 3 Adaptor 3/8" (male) to 10 mm (male)
- 4 Adaptor with hose connector to 10 mm (male)
- 5 Connecting hose 3/8" (female), length: 380 mm
- 6 Adaptor hose 3/8" (female) to 10 mm (male)
- 7 Adaptor hose 5/16" (female) to 10 mm (male)

### INTENDED USE

This hand pump is designed for both petrol and diesel vehicles, to retrieve excess fuel from fuel lines before maintenance, this eliminates the risk of fuel spills. The product includes quick release connectors, commonly found on many vehicles and a universal hose connector for older vehicles.

### SAFETY INFORMATIONS

- Due to the working fuel pressures in fuel systems, never slacken fuel pipes or try to disconnect components of the fuel system whilst the engine is running and high pressure is present in the system!
- Avoid skin and eye contact with fuels. When you working with fuels always wear fuel-resistant gloves and safety glasses!
- Do not work in areas where there is an open flame or fire.
- Never ignite a match or other flammable material near the engine and do not smoke during work on the fuel system.
- Do not operate electrically powered tools or other equipment that could cause a spark when working on fuel systems.
- Let the engine cool down before you start working on fuel system.
- Replace leaking or cracked fuel lines and connections.
- Keep children away from the work area and never allow them to play with the tool or its packaging.
