

GEN2 Wheel Bearing Kit/Ford 78mm

For removing and installing the wheel hubs and bearings on Ford models

Additional Information

- Applications: Ford Focus II, Ford C-Max, Mazda 3, Volvo C30, C70, S40, V50
- Generation II style wheel bearings are a wheel bearing and drive flange that cannot be separated.
- For 78mm diameter front wheel bearings. Replacement Bar - Part No 0454. Replacement Pin - Part No 0622
Replacement bearing available Part No 0662
- By using clamshells and force plates/pins the tool ensures the loads of insertion are taken only on the outer race of the bearing
- You should be using 5178-3 & 5178-4 together for removal and 5178-5 & 5178-6 for installing
The clamp shells need to be bolted together tight. Adequate and appropriate lubricants to be used on threaded force screws and thrust bearing (Laser Tools Recommends Molybdenum Disulphide Grease (black drive shaft grease))
