

SCANGRIP TRIPOD

For stationary positioning of work lights

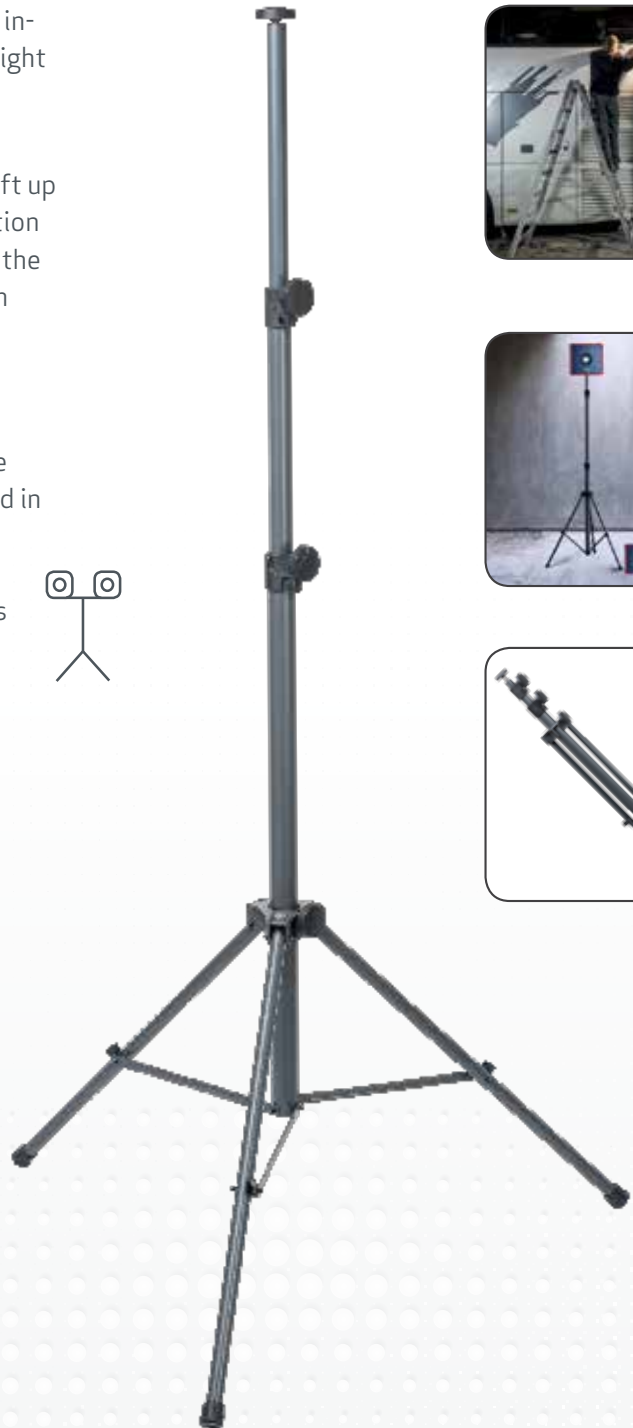

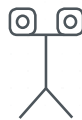

ORIGINAL
SCANGRIP
SINCE 1906

In the detailing workshop the SCANGRIP TRIPOD is indispensable for stationary positioning of the work light for illumination in a specific working area.

The SCANGRIP TRIPOD is extendable from only 4.5ft up to 10ft which gives you complete flexibility to position the light in the requested height. When mounted on the tripod the light can be tilted to provide the optimum beam angle.

The stable construction of the SCANGRIP TRIPOD makes it safe even when fully extended. To increase safety when in use the cable of the lamp can be fixed in the safety clips placed on each separate leg.

Dual bracket (03.5308) for positioning of two lamps available for MULTIMATCH 4 only.
