801.000.100
spraying unit 1 product
with 10 m hose and a 60 cm lance
in stainless steel

801.000.200
spraying unit 1 product
with 15 m hose and a 60 cm lance
in stainless steel

801.000.300
spraying unit 1 product
with 25 m hose and a 90 cm lance
in stainless steel

801.000.302
spraying unit 1 product
with 25 m hose and a telescopic
2 x 1 m lance in stainless steel

801.000.120
spraying unit 1 product
with 10 m hose and a 60 cm lance
in stainless steel

801.000.220
spraying unit 1 product
with 15 m hose and a 60 cm lance
in stainless steel

801.000.320
spraying unit 1 product
with 25 m hose and a 90 cm lance
in stainless steel

801.000.322
spraying unit 1 product
with 25 m hose and a telescopic
2 x 1 m lance in stainless steel

**dilution**

adjustable
16 different dilutions
are adjustable between
0.5 % and 12 %

operating pressure

2 - 6 bar

temperature

maximum 50 °C

**FEATURES**

Are connected to a water supply and dilute cleaning products with water automatically
→ no need for electricity.

Perfect for spraying cleaning products on cars, trucks and other vehicles.

Equipped with a fanjet nozzle

Quick coupling between gun and hose in order to disconnect the lance rapidly and easily.

Hose of superior quality, solidified with polyester fibre

MEASURING TIPS

The correct dilution is set based on a set of coloured measuring tips.

pink	0,50 %	blue	8,20 %
violet	1,10 %	white	8,90 %
dark brown	1,80 %	red	10,80 %
turquoise	2,10 %	beige	11,50 %
yellow	2,40 %	black	12,80 %
orange	3,70 %	grey	12,80 %
green	4,70 %	without measuring tip	12,90 %
light brown	6,50 %
