P-60 XTRA

POLISH-PROTECT & FINISH: ALL-IN-ONE

Advanced finishing polish incorporating superfine DRA abrasive Technology to remove moderate to light defects and to seal the surface with Carnauba Wax* protection.

The perfect solution: Polish, Protect & Finish:
One Product offering light paint correction, superior deep-gloss enhancement and wax protection all in one step.

Final-Step Compounding:

A final step after the compounding process for the removal of swirl marks and holograms to leave a deep gloss waxed finish to the surface.

Wax Protection:

Leaves a slick Carnauba Wax protective finish which lasts for up to 3 months.

DA/Rotary compatible

Bodyshop Approved: Silicone free.

Specially Developed: For restoring, polishing and protecting of cars, coaches, motorbikes, trucks, aircraft, boats, RV's/caravans.

***Carnauba Wax.**

The World's hardest natural wax!

Directions: Shake well before use.

Recommended machine speed:

Rotary machines: 1000-1500 rpm

DA machines: 2000-4000 rpm.

Foam Choice selection for severity of correction/defect:

Apply product to paint surface using either:
Surf-ACE P30 Orange Foam mop. P4000
Surf-ACE P40 Black Foam mop. P6000

Apply medium pressure allow polishing action to take place by letting the pad work freely without pressure.

NB. For optimum results clean pads at regular intervals; this prevents wax build-up and re-deposition, enabling the abrasive system to work at its optimum efficiency.

Finally, lightly buff to remove any surface residues left with a Micro-ACE microfibre polishing cloth

Typical Specification:

Composition : An emulsified blend of DRA micro-polishing abrasives, solvents, Carnauba wax, and perfume in water.

Appearance : Purple

Ph: : 8.5

Perfume : Cherry

Stability : Protect from freezing. Store at ambient temperature.

Shelf Life : 2 Years minimum in ambient temperature. Protect from frost

Packaging : 100ml, 1L

Part No. # 427
