

HI-ACTIVE TAR REMOVER

HI-ACTIVE SOLVENT BLEND FOR RAPID REMOVAL OF ROAD TAR 'SPATTER' FROM PAINTWORK, HEADLAMPS & WHEEL TRIMS

Rapid Action: Rapidly dissolves and removes all oil-based deposits from paintwork e.g. Bitumen, tar 'spatter' grease, oils and glues.

Exterior Problem solver:

Removes oil, fuel stains and tree sap from paintwork and glass. Also great for removing white polish residues from exterior plastic trim/bumpers.

Interior Problem solver:

Can also be used on vehicle interiors to remove oil stains, ink marks, chewing-gum deposits from seats, carpets and hard trim surfaces

Easy and Safe: Unique blend of solvents gives user good working time – will not dry too quickly

Directions: Apply with soft absorbent cloth or trigger. Allow 1 -2 minutes contact time. Rub surface gently until residue is dissolved and lifted away. After treatment, rinse area using sponge and water.

Interior use IMPORTANT. If in doubt whether a surface will stand cleaning pre-test Fabric Colour Fastness on an inconspicuous area before general treatment.

Apply to a clean cotton cloth and work inwards on the stain. Rub gently with second clean cloth to remove residue, then leave treated surface to dry. Finally, use interior cleaner to remove any residues. Leave to dry thoroughly before putting vehicle back into service.

Packaging : 325 ml
