ANNIVERSARY

# GAME RULES

## SELECT YOUR SQUAD

Start by forming the best squad from your cards. You must have 11 first-team players and five subs.

What's better? A three-man defence or four? A two-striker

system or three? On the gameboard, you can put together

every possible formation: the choice is yours!

Place your cards face-down on the gameboard and remember: during the game, you're not allowed to peek! A good coach knows their team like the back of their hand.

# ALKICK-OFF

OK, let's get started! Toss a coin to decide who will kick-off. Did you win the coin toss? Then choose one of your cards and decide whether to attack, defend or control the game. In response, your opponent must choose one of their cards, without revealing it until you've made your play. Is your score higher? Wow! You score a goal and keep possession of the ball. Is your score lower? Your opponent scores a goal and gains possession of the ball. But don't worry, you can make a comeback in the next round! Does your score match your opponent's? Compare your total scores. If they are also the same, the challenge ends without a winner. At the end of each challenge, the cards must be discarded.

## ATTACKOR

#### DEFENDOR

#### **CONTROL**THE GAME

Is your goalkeeper a penalty-saving master? If you're defending, before your opponent reveals their move, call out, "Penalty!" Compare shoot-out icons, and if your opponent's player puts the ball where your goalie will save it, you win the challenge!

# 6 FINAL WHISTLE

Once all the cards are used, if you've scored more than your opponent, you win the match!

## BONUS CARD

You can also upgrade a TEAM MATE by using with a CLUB BADGE, which boosts all three game values by five points each. But note: these cards can only be used with a TEAM MATE from the same club, and once used, the bonus card must be discarded.

#### MAKE A SUB

Just like in a real football game, subs can be crucial to secure a win, so use them wisely! You can use five in total: to make a change, switch a sub for a card that's in play before the next challenge.

## OTHER WAYS TO PLAY HURENALUN

# HORENALAN

#### **PENALTY SHOOT-OUT!**

WANT A QUICK FOOTY FIX? PLAY OUR PENALTY SHOOT-OUT GAME!

- Each player must select one goalkeeper and five penalty takers.
- Position your goalkeeper card face-up, and then shuffle your five players and place them in a pile face-down.
- Flip a coin to see who goes first.
  The winner of the toss draws their
  first player from the top of the pile
  and compares the Super Strike
  rating with their opponent's Super
  Save rating. Take turns taking
  penalties and keep score just like a
  real penalty shoot-out.
- If it's a draw then the game goes to sudden death. Draw cards at random, and then if you miss and your opponent scores, it's game over for you!

#### **GRAND TOTAL**

COMPARE TOTAL CARD
VALUES FOR A FAST AND
FUN GAME!

- Two players each put together the same number of cards in their deck, shuffles them and places them face-down.
- Each player draws the top card in their pile and turns it over. They compare their total value: the card with the highest score wins.
- Players keep flipping their cards until their decks are done: whoever finishes with the most cards is the winner!

#### TIKI-TAKA

YOU CAN PLAY WITH TWO, THREE, FOUR, OR AS MANY PLAYERS AS YOU LIKE!

- All participants play with a deck of cards, shuffled and face-down.
- · Flip a coin to see who goes first.
- Whoever wins the toss turns over their top card and chooses whether to attack, defend or use the playmaker value.
- If the first player has chosen to attack, all players who follow must defend and viceversa. If, instead, the first player has chosen to use the playmaker value, all players must respond with that value.
- The player with the highest score wins the game and gets all the cards of the opponents who took part in the round.
- The winner of the previous match begins the next game.
- Players continue to compare cards until one of them holds all the cards: this player is the winner!

## TEAM MATES

#### **BUILD YOUR TEAM**

First, you need a good foundation: a starting 11 plus substitutes. To put your squad together, begin with TEAM MATES cards. Make your decisions, line up your first-choice team, decide who to bench and who will start the game. The road to victory starts here!

There are 14 TEAM MATES for each team.

The total score of the CORE cards is between 200 and 220.

But watch out! There are a few surprises...

#### IDOLS

Whether their faces appear on flags and banners in the ground, or they have their own special song, or their names are simply emblazoned on the back of the most shirts in the crowd, these players inspire their fans – and terrify the opposition.

#### FOLLOW THE LEADERS...

Experience, calm, leadership and authority. This is the recipe for the perfect captain. They've earned the respect of their fans and colleagues through sheer hard work and dedication to the cause, and now they wear the armband. Follow their example and lead your team to glory!

The total value of FANS cards is between 220 and 235

The values that appear on the cards have been decided by the Panini Editorial Board. These values are based on a rigorous analysis of the attacking and defensive skills of each player featured in the collection. These scores were also adapted to the special features of the PANINI FIFA 365 ADRENALYN XL™ 2025 card game. Under no circumstances should these scores be considered as an absolute rating of the real players' different skills on the field of play. Game data and content are correct as of 1 July 2024.
