PORTSMITH

Single Slot Ethernet MC93/94/9450

The Portsmith PSCMC9300E is a high-performance, single-slot docking solution engineered for the Zebra MC9300, MC9400, and MC9450 series mobile computers. Designed for full duty-cycle applications in warehouses, factories, and retail hubs, this cradle provides a reliable 10/100 Mbps wired Ethernet connection and safe, regulated charging. Its rugged steel construction ensures long-term durability while the smart-sensing power delivery protects both the dock and the handheld device.

Power On Full Time

Always on power and charging

Power supply included

On-board over-power protection

Built For Enterprise

Rugged ABS cradle elements

Steel chassis structure

Portsmith's renowned quality

1-year warranty

Specifications

Ethernet connectivity in single-slot only

Power supply included

One-hand insertion / removal

Rack-mount options available

Supported Devices	Zebra	MC9300, MC9400, MC9450
Models	**PSCK-MC9300E**	• Includes: cradle, power supply, DC line cord (NA), 6-ft Ethernet cable
	PSCMC9300E	• Cradle only
Connectivity	**Ethernet**	• 10/100 Mbps
	Connector Type	• Single rear-facing RJ45 port
	Interface	• Integrated wired Ethernet via pogo pads; no drivers required
Physical	**Dimensions**	• 5.0" L x 4.5" W x 3.0" H
	Weight	• 1.5 lbs
	Construction	• Rugged powder-coated steel chassis with injection-molded ABS cup
Power	**Input Voltage**	• 12V DC
	Input Current	• 5A
	Protection	• On-board over-current and over-power protection. Smart-sensing: Power is suppressed until the device is detected
Environmental	**Operating Range**	• Operating Temperature: 0° C to +50° C (32° F to 122° F • Storage Temperature: -40° C to +70° C (-40° F to 158° F) • Humidity: 5% to 95% (non-condensing)
Regulatory		• FCC and CE
Warranty		• One-year standard manufacturer warranty
Design/Manufacture		• Engineer and designed by Portsmith, Boise USA • Manufactured Malaysia
