## FEATURES

### Acoustic Balance Principle

Unlike traditional subwoofers, BeoLab 19 remains incredibly still by balancing the vibrations of the two speaker drivers to cancel each other out.

### Room adaptation

A three-position switch controls the bass response of the speaker depending on the placement of the speaker in the room.

### Thermal protection

The temperature of all driver units is constantly monitored to keep the speaker at top performance all the time.

### Line sense

Auto on/off - for connecting non-Bang & Olufsen equipment.

### Connections

1 x Power Link (RJ45)

1 x RCA (L/R)

1 x TOSLINK

Wireless Power Link
