

MAJI COLLECTION

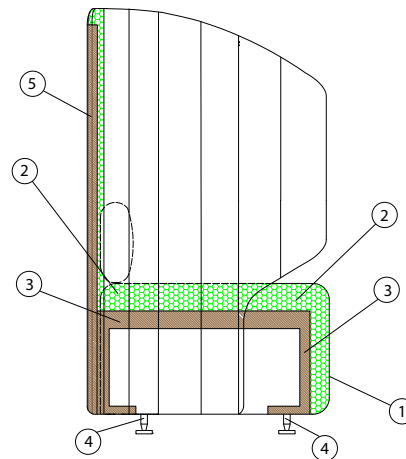

The name - Maji - comes from Japanese, and means “Really?”, an exclamation of surprise and amazement, as if it stirred questions such as “Can you actually sit in that shell? Can you really combine so many elements together?” Maji is an original modular system for office spaces or waiting areas, versatile and adaptable to any setting. It consists of a padded wall, which can be endlessly modulated, and it can wrap, as a protective shell, the most diverse elements, such as chairs, sofas, shelves, hangers.

MAJI LOW

- 1 - dacron® fiber 100 gr;
