

# NOVA 3K C+R

## Outstanding 3000 lumen COB LED work light with DUAL SYSTEM

**A+**

ORIGINAL NOVA work light – now in an even better and new generation. NOVA 3K C+R is a universal all-round work light both rechargeable and with cable (DUAL SYSTEM) providing you endless application possibilities in every working environment.

The sturdiness of the new NOVA 3K C+R makes it endure the rough, wet and dirty environment at the construction site, and can be used for outdoor work under all kinds of weather conditions. The unique COB LED technology delivers extremely high light output, with a uniform and completely even illumination. The CRI value is close to that of daylight, and the NOVA housing is made of a robust diecasted aluminum, resistant to strong strokes, shocks and vibration – perfect for a working environment.

The new NOVA design is elegant, with an integrated carrying handle and a new stand for direct mounting on the SCANGRIP TRIPOD. The new light dimmer function makes it possible to adjust the light into five levels. An intelligent display for battery capacity and remaining operating time is available on the backside.

### DUAL <sup>2 in 1</sup> SYSTEM

The DUAL SYSTEM provides you with the freedom to use the lamp where you need it. For instance in remote areas with limited or no access to electricity or with unstable power supply. On the NOVA 3K C+R, DUAL SYSTEM has been improved with much easier and faster fitting and detaching of the cable.
