

## Plastic distribution box

### Basic characteristics

- Constructed of high-quality Polycarbonate material
- IP 66/IP 67 Water immersion protection
- Stainless steel screws for cover fixation
- Cover with PUR seal
- Chemical, Electrical and UV resistance

### Applications

- Harsh environment
- Fiber to Antenna
- Military Broadcasting
- Medical
- Oil and Gas
- Transport
- Renewable energy

### Temperature range

Outdoor environment (-40°C/+80°C)

### Material parameters

Material	Polycarbonate
Colour	Grey (RAL 7035)
Impact resistance	IK07 / IK08
Electrical resistance	Complete resistance
UV resistance	UL 508
Fire classification	UL 746C 5"
Temperature range	-40°C to +80°C

### Box dimensions

Width	124 mm
Length	244 mm
Height	102 mm

### Available capacity of IP adaptors

IP MPO adaptors	2 adaptors	Front installation
IP LC duplex adaptors	6 adaptors	Left-side installation
	6 adaptors	Right-side installation

### Identification

Traceability label with unique serial number on bottom of the box (inside).

### Packaging

Each plastic box is packed in a cardboard box.
