

Assembly instructions

The Organized bag is equipped with a protective stiffening board in hard plastic and soft foam that runs along all sides of the bag.

When delivered the board comes unmounted, but placed inside the bag. To assembly

1. remove the board from the bag
2. open the zipper (A) that runs around the inside, below the lid zipper
3. insert the board **hard side facing outwards**
4. close the zipper.

Additionally, the bag is delivered with removable inner walls that can be freely arranged to suit your needs. Use the velcro stripes for fastening.
