

# PACKSHOT

## REGULAR FIT, SLIM FIT AND PLUS SIZE

# IDEAL TOOL FOR CATALOGUES, WEBSHOPS AND MORE

---

Packshot photo mannequins by Hindsgaul® is a series of male, female and child body forms, which now includes both regular, slim fit and plus size female. The series is specially designed for photographing of clothes for catalogs, websites, webshops or for any other purpose where you want to display the clothes in a three-dimensional way.

The whole series has the same versatile functionality and easy-to-use accessories, and is suitable for neutral photo shoots of any types of clothing. The design offers a straight forward position, but still with details of a body inside the clothes so the mannequin can be photographed from all angles. Perfectly shaped body parts enhance and fulfill the exposure of the designs and support the curves. These body forms are developed for easy dress and undress; extended arms and legs support the clothing.

---

The colour is carefully selected, light grey and in gloss 10-15 to prevent any reflection from lights.

# THE PROCESS

With the removable neck parts, it is possible to take photos and directly capture the details in the collar, e.g. the brand. This feature also makes it easy to shoot pictures of tops with deeper necklines.

Remove the elements that are visible with just a few clicks in your photo processing program.

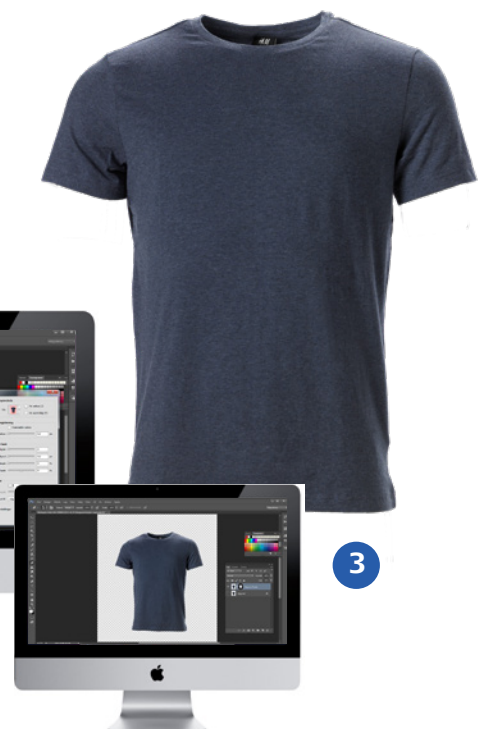

Simple set on/lift off neck piece, no lock

# PACKSHOTS HAVE NEVER BEEN EASIER

Simple set on/lift off body assembly, no lock

Double spike support ensures stability

The Huddi presenter makes photo shooting of the hoodie easy; it is now possible to show the hood in 3D, while still showing the brand label.

Packshot gives the opportunity to expose various accessories like scarves, highnecked clothing items etc.

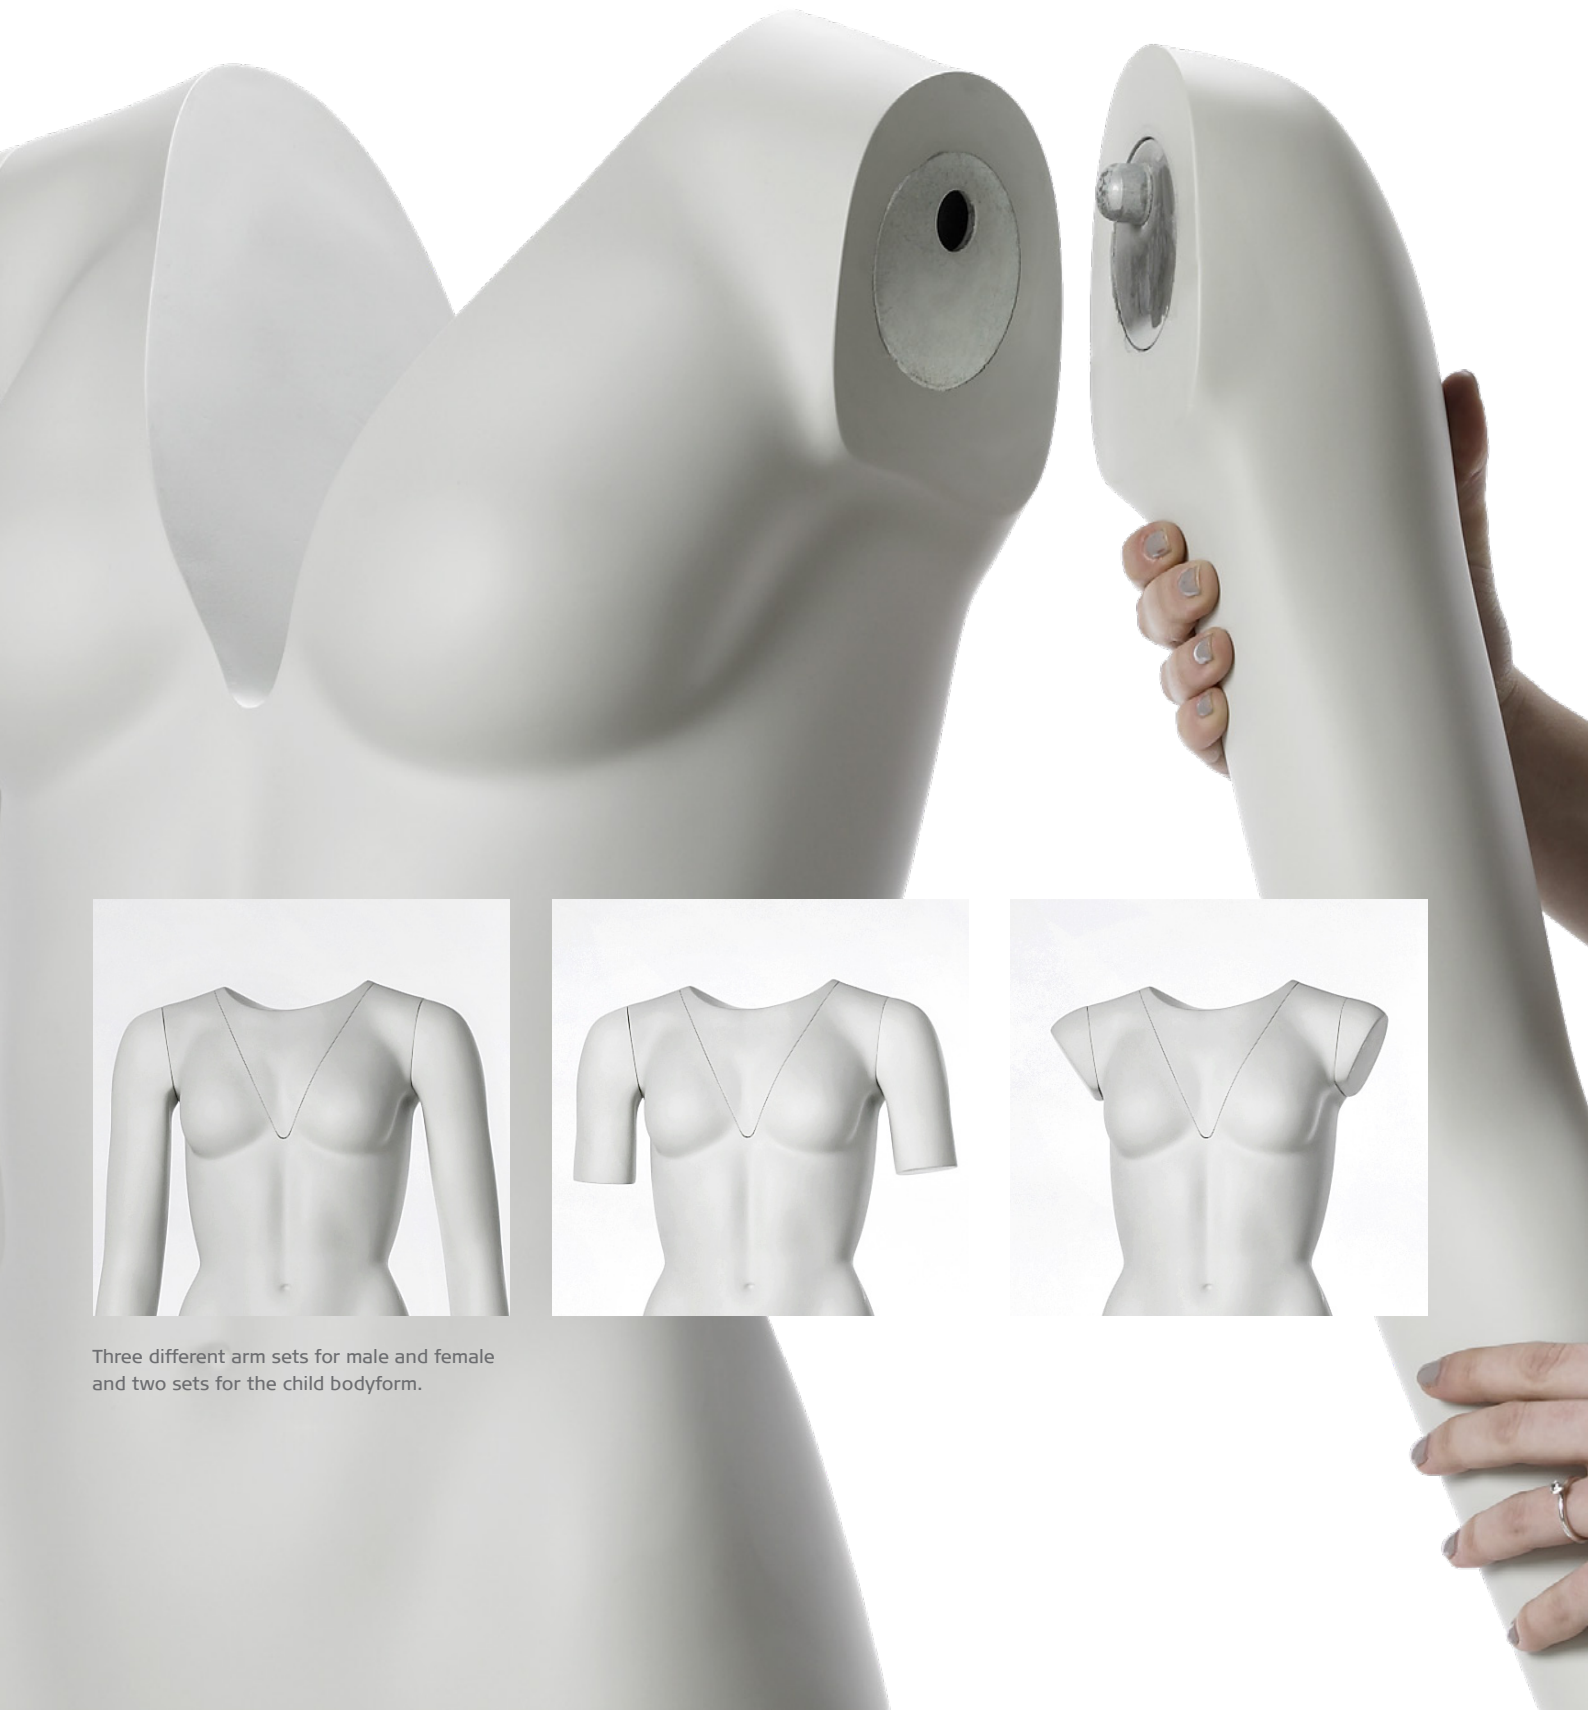

Showing the brand label

# THREE DIFFERENT ARMS WITH MAGNETS

The arms have been given magnets for easier assembly. The magnets ensure an easy handling and assembly of the body form.

The improvements mean even greater functionalities and user-friendliness. Please note: the arms should be attached carefully as the magnets are strong.

Three different arm sets for male and female and two sets for the child bodyform.
