

MOBI

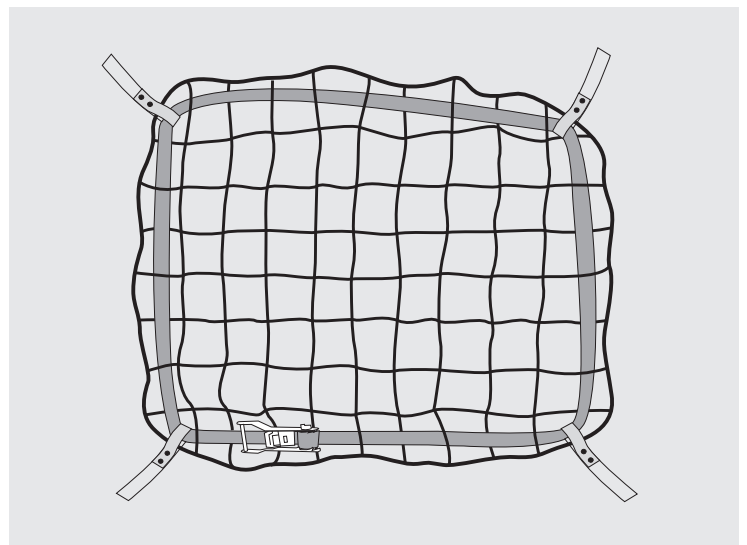

Mobile skylight protection system

EN

The **MOBI mobile skylight fall-through protection** from **INNOTECH®**, made from high-strength polypropylene, is used both as a fall protection system, and also as an anchorage point for one person. It ensures ideal safety, especially for clearance or maintenance work in winter, and is exceptionally practical and simple to use – the absolutely reliable prevention for skylights, which are often underestimated as a potential source of danger.

- mobile fall protection system and temporary anchorage point
- for the temporary protection of skylights
- attached by a tension strap to the skylight – causes no damage to the skylight
- lasting strap can additionally be used as an individual anchorage point
- simple and quick installation by means of holding straps
- optimum for short-term tasks
- to the latest state of the art certification:

EN 1263-1
 EN 795:2012 type B
