Product Informatie

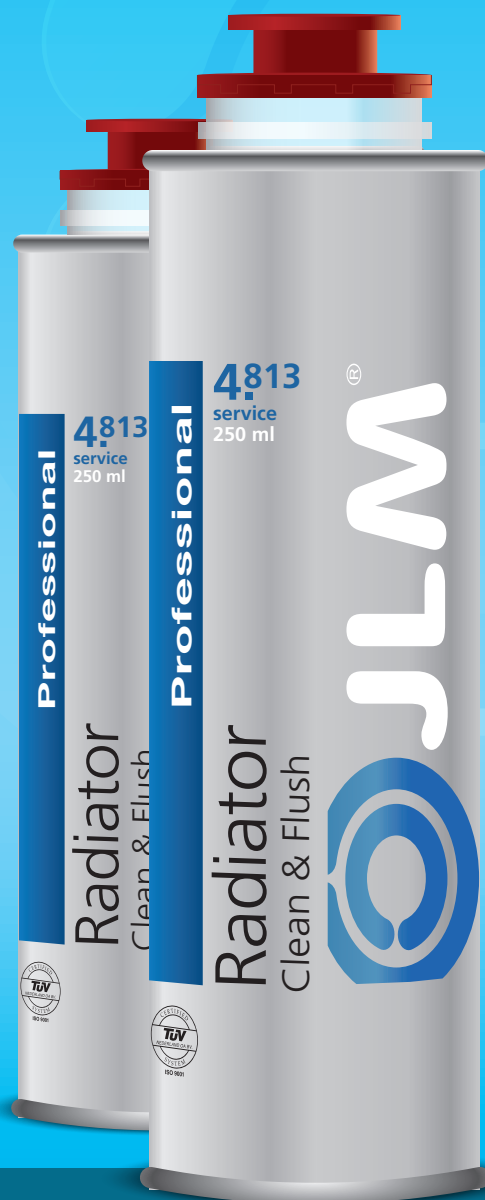

JLM Radiator Clean & Flush quickly & effectively removes iron oxides from corroded metal surfaces without damaging base materials. Dissolves scale & lime build up in radiator, hoses heater & engine.

- Safe on all materials in cooling system
- Compatible with coolant & antifreeze
- Neutralizes acid
- PH Neutral
- Dissolves grease & oil.

Use

Follow manufacturer's instructions to open radiator. Shake bottle well before use. With the engine at operating temperature, run at idle speed, turn on the heater then add the contents of the bottle to the radiator coolant. Keep engine running for a further 30 minutes at operating temperature. Switch engine off, drain the radiator & flush with clean water. Refill system with coolant according to manufacturer's instructions. 1 Bottle treats up to 50liters of coolant.

Suitable for all types of heating & cooling systems.
