

## Square 450 Dual-C

### VACUUM PACKING MACHINES WITH CHAMBER ON WHEELS

They are **professional packers** especially suggested for medium-sized enterprise and built to be solid and grant the highest peak of productivity.

The reliability of **INTER-COM** equipment is meant to grant everyone a high daily operativeness level, a solution for any **packing need** or requirement and also makes these machines ideal for supermarkets, labs etc...

**Overall dimensions**

680x610x1050 H

**Vacuum chamber dimensions**

560x460x220 H

**Sealing bar**

2 X mm 450 (1x5 mm)

**Vacuum Pump**

Q = 20/24 m<sup>3</sup>/h OIL

**Control panel**

Digit 6 PRG

**Voltage**

230 V/50-60 Hz

The reliability of **INTER-COM** equipment is meant to grant everyone a high daily operativeness level, a solution for any **packing need** or requirement and also makes these machines ideal for supermarkets, labs etc...

#### Overall dimensions

840x700x1050 H

#### Vacuum chamber dimensions

720x570x220 H

#### Sealing bar

2 X mm 550 (1x5 mm)

#### Vacuum Pump

Q = 60/72 m<sup>3</sup>/h OIL

#### Control panel

Digit 6 PRG

#### Voltage

380 V/50-60 Hz

## 900-C

### VACUUM PACKING MACHINES WITH CHAMBER ON WHEELS

They are **professional packers** especially suggested for medium-sized enterprise and built to be solid and grant the highest peak of productivity.

The reliability of **INTER-COM** equipment is meant to grant everyone a high daily operativeness level, a solution for any **packing need** or requirement and also makes these machines ideal for supermarkets, labs etc...

#### Overall dimensions

1040x700x1050 H

#### Vacuum chamber dimensions

920x570x220 H

#### Sealing bar

900/500 mm

#### Vacuum Pump

Q = 100/120 m<sup>3</sup>/h OIL

#### Control panel

Digit 6 PRG

#### Voltage

380 V/50-60 Hz
