

## Storage, transportation and stacking tank ST-T

Speidel's ST-T tank for storage, transportation and stacking is truly versatile. Up to three of the tanks can be stacked on one another even when filled. Yet, with the appropriate supplementary equipment they allow even more applications. If ordered for example with mash door and double jacket, the ST-T is ideally suited for the processing of mash.

The stable stainless steel framework is accessible from 4 sides by forklift/pallet truck. To quarantee even higher safety during transportation by forklift the tanks have additional fork lift receptacles that can be accessed from underneath from two sides. By default, the top end is made of AISI316 material.

## **APPLICATION RANGE (PRESSURELESS)**

- > Storage
- > Transportation
- > Beer

Ideal for

- > Maturation
- > Soft drinks
- > Fermentation
- > Alcoholic drinks
- > Processes

## STANDARD EQUIPMENT STORAGE, TRANSPORTATION AND STACKING TANK ST-T
