The sale of Thrust Vector products is not permitted to discount vendors or at auction (e.g., eBay). The usage of 3rd party online platforms (e.g., Amazon, eBay [Buy-It-Now option]) is permitted, as long as the listed prices are at or above Manufacturer Suggested Retail Price (MSRP), errors and omissions excepted.

Adult Diaper Excellence

Thrust Vector diapers are one of the highest absorbing printed diapers today. In an [independent test in April 2020](#), Thrust Vector diapers outperformed all other reviewed diapers across all categories.

Thrust Vector diapers are made in the European Union, unlike most other printed diapers on the market. Since they are registered as medical devices, all components of Crinklz diapers have to comply with strict regulations, such as the [European Union Medical Device Directive](#) and US regulations like [California Proposition 65](#).

Composition

- Superabsorbent polymers in the central section with oxygen-bleached fluff manufactured to favor maximum absorption capacity
- Product backsheet: Micro-embossed atoxic polyethylene
- Coverstock made of non-woven fabric: 100% polypropylene hydrophilic fibers
- White acquisition and distribution layer, which aids in liquid distribution and prevents rewet
- Four refastenable tape closures (target tape system)
- Hotmelt glue
- Waistbands back and front for better body fit (fluted)
- Inner anti-leak waterproof cuffs for leakage protection at the sides

Quality Standards

- Classification: 2017/745 EU-MDR Class I Medical Device non-sterile
- Quality management: ISO 9001:2015 and ISO 13485:2016
- Shelf life: 5 years
- Storage conditions: Covered room protected from inclement weather, no exposure to direct sunlight, storage temperature no less than -15 °C, no more than +40°C, in a controlled environment with no more than 60-70% of humidity

Product Size	EAN #	REF #	Backsheet Color	Hip Measurements	Total Absorption (ISO 11948-1)	Total Weight per Diaper	Pieces per Polybag	Polybags per Case	Case Carton Dimensions	Case Cartons per Skid	Skid Dimensions
Medium	4260440330747	70500	Printed	75-110 cm	4450 g	210 g	15	4	700 x 380 x 231 mm	3 x 8 = 24	80 x 120 x 238 cm
Large	4260440330761	70600	Printed	110-150 cm	5150 g	230 g	15	4	710 x 380 x 299 mm	3 x 7 = 21	80 x 120 x 232 cm

(Weight and dimension tolerance ± 5%)

* in the ADISC Advanced Diaper Reviews in 2018 and 2020 in performance and cost-effectiveness.
