

# PVC CLEANER & PVC CARE INFOSHEET

# Wibit PVC cleaner

**Item No. 40250, 1 litre** (incl. spray head & sponge with handle)

**Item No. 40251, 5 litre**

To be used pure!  
(no dilution with  
water)

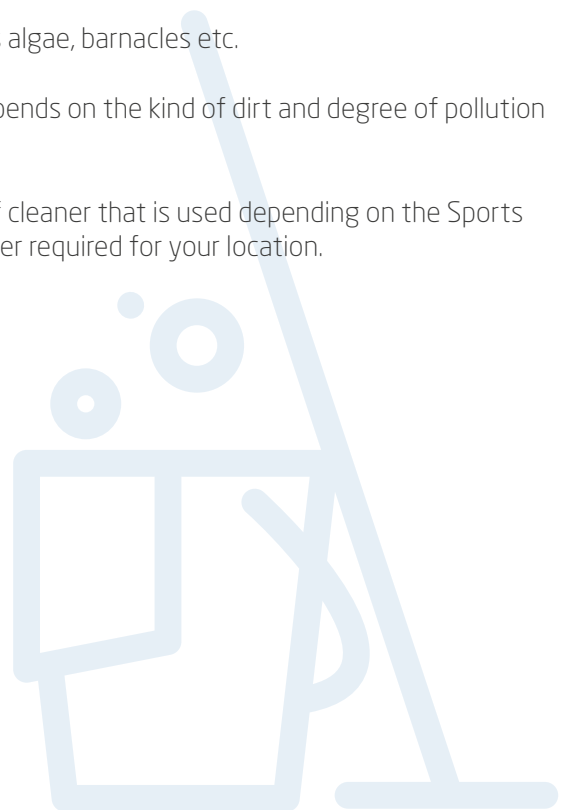

The PVC cleaner is only intended to be used for organic dirt such as algae, barnacles etc.

The actual amount of cleaner needed to clean your Sports Park depends on the kind of dirt and degree of pollution on your product(s). See also our *Operating Guideline Cleaning*.

The specifications in the table are based on the average amount of cleaner that is used depending on the Sports Park size and can guide you when determining the amount of cleaner required for your location.

SportsPark	PVC cleaner
StartUp	3-4 litre
SportsLoop	6 litre
SportsPark S	8 litre
SportsPark M	12 litre
SportsPark L	17 litre
SportsPark XL	20 litre

# Wibit PVC care & protection

**Item No. 40255 1 litre** (incl. spray head & sponge with handle)

Diluted with water, mixture 1:20! (not pure)

The Wibit PVC care & protection is to be used after the PVC cleaner for neutralization and to conserve the treated surface. It is also suitable as a gentle cleaner for the top of the products.

The specifications in the table are based on the average amount of cleaner that is used depending on the Sports Park size and can guide you when determining the amount of cleaner required for your location.

SportsPark	PVC care & protection
StartUp	1 litre
SportsLoop	2 litre
SportsPark S	3 litre
SportsPark M	5 litre
SportsPark L	7 litre
SportsPark XL	9 litre
