

MatchBallArena

More players, more action - the interactive throwing challenge

The module in action:

While one player challenges their balance on the central beam, others try to playfully knock them off using large balls hanging from ropes. Four suspended balls ensure constant action – the more players, the more dynamic the game. Integrated climbing aids allows players to easily climb back onto the module from the water.

Your benefits:

Designed as a standalone module, the MatchBallArena is perfect for pools and waterfronts with its shallow water requirement. With its interactive multiplayer concept, it provides an excellent way to enhance your leisure offerings with a sporty, playful and engaging experience.
