

2.0 GENERAL INFORMATION

The EasyRoller Pool contains only thermoplastics.

EasyRoller Pool is a craftsman's product – the body and the footrest are made from rotational moulded HDPE.

By being made from HDPE the EasyRoller Pool wheelchair will not affect, nor be affected by waterchemicals.

The EasyRoller Pool has weights inserted to avoid floating of the chair. It is equipped with a drilling configuration to enable smooth water inlet and evacuation

The EasyRoller Pool is designed for use in Pool/SPA environments – it can be submerged in water

The EasyRoller Pool wheelchair comes without Back and Seat paddings.
