

BCS Afrodite+

Algae, moss and mold remover

Follows EU's directive for detergents

Range of application:

BCS Afrodite+ can be used on all surfaces - roofs, facades, ground areas, fences, stairs etc. Can be used on painted or untreated material.

How to use:

BCS Afrodite+ is an efficient product used for removal of algae, moss and mold. If you use this product on a facade you might have to agitate the area. When using on weather vulnerable surfaces (roofs, ground areas etc) the growth normally goes away without you having to agitate - algae after a year and lichen after two years. If you are going to rinse the area, leave the product to act for 24 hours before rinsing.

Containers: 10 or 25 litre, can

Storage: Frost-free in original packing
