

BCS Atena

Acid facade cleaning

Follows EU's directive for detergents

Range of application:

BCS Atena dissolves limestone, oxides and has good degreasing effect. The product can be used on all surfaces but is the most efficient when used on stone, brick and stainless steel.

How to use:

Pre-water the area before applying BCS Atena. Let the product act for 5-15 minutes before rinsing. Jet off with water, maximum 50°C with a pressure adjusted by the nature of the surface. Wash starting at the bottom and rinse starting at the top.

Containers: 10 or 25 litre, can

Storage: Frost-free in original packing

Dosage: Concentrate 1:20
