

## OFF Graffiti Remover 3

Gelified graffiti remover

Follows EU's directive for detergents

### Range of application:

OFF Graffiti Remover 3 can be used on all types of surfaces, the product is gentle to the underlying surfaces and is therefore suitable for varnished, plastic and painted surfaces. The product is also suitable for removing graffiti from bus and train.

### How to use:

Apply OFF Graffiti Remover 3 and agitate the graffiti with a sponge or a brush until the graffiti is dissolved. Then wipe the surface clean with a clean cloth and rinse with water. If it is possible to use a high-pressure cleaner, remove the dissolved graffiti from the bottom upwards, and rinse off from the top downwards. If a second layer is necessary, make sure the surface is dry before applying. The uniqueness of the product is that it forms gel over the surface it is applied. The contact time therefore becomes longer and the product dissolves the graffiti more effectively. You also avoid aerosol in the air.

Always apply to a test area to detect and color differences. Shake well before use.

**Containers:** 400 ml in spray can

**Storage:** Frost-free in original packing

**Dosage:** Concentrate

**pH value:** Neutral
