

OFF Venus Gel

Gel graffiti remover

Range of application:

OFF Venus is a very effective gel graffiti remover that effectively solves graffiti.
OFF Venus does not attack aluminum.

How to use:

Removal inside of vehicles:

Apply OFF Venus with a cloth or brush and process the graffiti with a sponge or brush until graffiti is dissolved. Then wipe the surface clean with a clean cloth and rinse with water. If needed, apply OFF Venus again or use our shadow remover OFF Tor.

Effect time on varnished surfaces: 5-30 min.

Exterior graffiti removal off vehicles:

Apply OFF Venus with a brush and process the graffiti until it dissolves. Then wash it off with high pressure, repeat treatment if necessary.

Effect time on varnished surfaces: 5-30 min.

Grffiti removal off porous surfaces:

Apply with a brush, roller or high-pressure spray and agitate the graffiti with a brush. Allow to take effect for approx. 10-30 min, allow longer if the layers of paint are thick or in cold and damp weather. Always adjust the water temperature and pressure to the type of surface. Normally a rinsing temperature/pressure of 90°C / 90-150 bar is sufficient. For the remaining shadows, apply OFF Tor or OFF Munin if the surface can withstand this, and then rinse off.

Always make a small test on the surface to make sure the underlying surface does not damage.

Containers: 5 or 25 litre, can

Storage: Frost-free in original packing

Dosage: Concentrate

pH value: Neutral

Consumption: Approx. 0,3-1,0 litre/m²

ADR: Not classified as dangerous goods for use by road or rail transportation
