

SPS Trud

Iron oxide and fly rust remover

Area of use:

Perfect to use on Boggies, trains and dirty rims or on the paintwork to remove oxides. The product is pH neutral and effectively dissolves brake dust, fly rust and other dirt. It is gentle on aluminium, lacquered and clean metal surfaces.

How to use:

Preferably applied with a soft brush, low-pressure or foam sprayer, leave on for about 5-10 minutes and process with a soft brush.

Wash with high pressure, for severe soiling it is an advantage if hot water can be used. If necessary, repeat the treatment.

Containers: 10 or 25 litre can

Storage: Frost-free in original packing

Dosage: Concentrate – 1:5

pH value: Neutral

Consumption: Approx. 0.25-0.5 litres/m²

ADR: Not classified as dangerous goods for use by road or rail transportation
