MOSQUITO TRAP

AMT 100

Area Coverage: 1500m

CATCHES: MOSQUITOES / MIDGES / INSECTS

Armed with RapidAction

In just four years, the Amplecta AMT 64 mosquito trap has been sold to more than 50,000 satisfied customers throughout Scandinavia. Today, several thousand retailers have acquired the mosquito trap as a “must have” item in their store inventory. The success praised by some retailers as the product that “sells itself,” increases store traffic without cannibalizing on other merchandize.

Amplecta now proudly presents the AMT100 Mosquito Trap – this next generation mosquito trap features cutting edge research and technology and leads the way in mosquito extermination.

Manufacturing – Cutting out unnessesary intermediaries

Because Amplecta is the manufacturer products can be shipped directly to you without passing through additional middlemen. This results in higher retail margins and the competitive pricing is passed on to the consumer.

Expect 'repeat purchases'

The new Amplecta AMT100 mosquito trap has many features that imitate the human body to attract mosquitoes and other biting insects. Features as UV-light, RapidAction scent attractants, heat generation, and CO₂ emitting gas (imitating human exhalation) all attract the female mosquito in its quest for blood. RapidAction

RapidAction

BioTech

Recommended accessories for Mosquito Trap AMT 100. RapidAction CO2 Booster Attractant.

seeking mosquitoes are attracted to the trap. Once the mosquitoes are close to the trap, they get sucked in by the AMT100 Mosquito Trap's powerful vacuum fan. The trapped mosquitoes are collected in the catch container where they soon dry out and die. Under normal conditions the AMT100 Mosquito Trap will exterminate the mosquito population in an area up to approximately 1500 m².

cartridges are replaced once per month. The Catch bag container is normally emptied once a week or as needed.

A) Water/Wetland. B) Wind direction. C) Distance between your house/terrace and the Mosquito Trap should be a minimum of 10 meters. D) Placement of the Amplecta Mosquito Trap AMT100. E) Octanol scent attractant. F) UVlight 360°. G) House/terrace
